# ABOUT TSP•2

The American Association of State Highway Transportation Officials (AASHTO) has contracted with the National Center for Pavement Preservation (NCP) to host the new Transportation System Preservation Technical Services Program (TSP•2). The goals of the TSP•2 are to:

1. Provide a clearinghouse for comprehensive, up-to-date information on effective preservation technologies that enhance pavement and bridge performance and extend their useful service life.
2. Develop and administer a system preservation “Help Desk” to afford State highway agencies with a one-stop source for technical, training, and outreach services.
3. Offer State highway agencies the means to exchange ideas, information, and best practices with one another.

## THE TSP•2 WEBSITE

---

The NCP has established a new website which will serve as the focal point for TSP•2 information and activities. The website can be accessed at: <http://www.tsp2.org>.

Access to the website is open to all State highway transportation personnel and

other interested pavement and bridge practitioners.

The TSP•2 website has several features designed to facilitate the exchange of preservation information. These include:

1. The TSP Preservation Research Roadmap,
2. A Bulletin Board and System (BBS), containing a wide range of preservation related topic discussion areas.
3. LISTSERV email mailing list enrollment and new list requests.
4. A Help Desk assistance request system.
5. An on-line System Preservation Technical Library.
6. An Event Calendar and
7. A Preservation News Archive.
8. An interactive Pavement Preservation Treatment Screening Tool based upon the CALTRANS MTAG screening matrix.

## THE TSP•2 HELP DESK

---

State highway agency staff may request personalized assistance on any system preservation-related issue. The staff of the NCP has extensive experience with a wide range of preservation technologies and best

practices, asset management and network evaluation.

### Contacting the Help Desk:

**Call: 517-432-8220 (M-F, 8-5 EDT)**

**Fax: 517-432-8223**

**Email: [ncpp@egr.msu.edu](mailto:ncpp@egr.msu.edu)**

**Web: <http://www.tsp2.org>**

## TSP•2 EDUCATION AND OUTREACH SERVICES

---

NCP preservation specialists are available through the TSP•2 for 1 – 2 day seminars covering a variety of system preservation topics at your State highway agency. Some examples of the training we can provide include:

1. Overview of preservation technologies and best practices.
2. Network evaluation and asset management techniques.
3. Integrating preservation in network strategy.
4. Sessions on specific preservation treatments.

### HELP DESK QUESTIONS?
